

## Graded Examinations in Spoken English (GESE)

Trinity's Graded Examinations in Spoken English (GESE) are one-to-one, face-to-face oral assessments of speaking and listening skills. There are 12 GESE grades available from 1 to 12 (pre-A1 to C2 CEFR\* levels).

### Graded exams that build communication skills

Trinity's GESE exams help prepare learners for the real world in the 21<sup>st</sup> century. They are designed to assess a range of communication skills and test what the learner 'can do' rather than just theory.

Teachers and candidates find the Trinity approach to exam preparation engaging and motivational with its emphasis on developing communicative skills and building confidence among candidates. The opportunity for certified recognition at each stage of achievement inspires learners to progress further through the grades.

### Suitable for learners of all ages and abilities

GESE exams are suitable for all students, whatever their level, from absolute beginner to advanced accomplishment. Learners range from school or college students to mature learners – from those who need to develop their English for education reasons, to those who want to develop their English language skills for professional purposes.

Exams are available at 12 grades of proficiency, organised into four development stages from:

**Initial** (Grades 1-3), through **Elementary** (Grades 4-6), **Intermediate** (Grades 7-9) to **Advanced** (Grades 10-12).

### Assessment components

At each stage candidates carry out a number of realistic speaking and listening tasks that show their fluency, accuracy and ability to communicate in spoken English. Depending on the level being assessed, task components include:

- ▶ **The Topic:** before the exam, the candidate prepares a topic of their choice – this is used as a basis for discussion and as the basis of a presentation at advanced level
- ▶ **The Interactive task:** a prompt from the examiner initiates candidate-led speaking and listening interactions – requiring an authentic exchange of information and opinions
- ▶ **The Conversation:** an opportunity to demonstrate a realistic exchange of information, ideas and opinions at an appropriate level for the grade
- ▶ **The Listening task:** short spoken passages prompt the candidate to demonstrate prediction, deduction and inference skills (only at advanced level)
